Introduction:

The Internet has become a lifeline for many Americans. Many people shop, pay bills, make reservations, send email and instant messages, pursue an education, and access medical information online. In spite of having all these available resources, many people require some measure of guidance to access and use them effectively.

There are many resources for medical information on the Internet and the Atlantic Health Intranet that can enhance our work. This packet is designed to help you navigate through these resources.

1) What is Reliable?

Just about anyone can post information on the Internet. It is important that you access resources that are reliable. The Atlantic Health Libraries Library Links website posts links that are known to be reliable and up-to-date. You can access this page from any Atlantic Health computer with the following URL:

http://intranet/Administrative/SharedServices/LibraryLinks/

Or you may click the “The Health Library” link in the “Essential Links” block at the Atlantic Health homepage.

From home:

http://library.ahsys.org/

Or sign in to Intranet through:

https://remote.atlantichealth.org/employee

The log in is the same as your computer log in. Then click “The Health Library” link on the Atlantic Health home page.

Many associations and organizations have their own informational websites. If you know the organization to be credible, their website will have reliable information. You can locate an organization’s website by using a search engine or web directory; (see Search Engines and Directories below). The American Cancer Society, The National Cancer Institute, the American Heart Association, the American Diabetes Association and many other sites are credible and reliable sources of information.

In addition, there are more reliable links from the National Library of Medicine site: MedlinePlus

There are also organizations that will approve of websites that meet their criteria for quality, privacy, and reliability. A HON icon means that a site complies with the Code of Conduct as outlined by the Health on the Net Foundation at http://www.hon.ch.

Atlantic Health Libraries purchase access to databases of articles and abstracts of articles printed in current journals. MEDLINE, the National Library of Medicine’s flagship database, includes articles exclusively from peer-reviewed journals.

Prepared by your Atlantic Health Librarians, 3/10/2014
MEDLINE is available on the Internet through PubMed and through OVID. Links to full-text are available from both. You must sign into My NCBI in PubMed to get the links for the full-text that we pay for. If you access MEDLINE through OVID on the Atlantic Health Intranet, there will be links to the full-text that we pay for.

Information from individuals is as reliable as those who provide it. Any article can be posted on the web without restrictions in place to prevent someone from altering the content of the article before posting it. If you use information from an individual’s website, make sure that you verify the credentials of the person posting the information.

The following pages include samples of reliable websites from associations, organizations and government:

MedlinePlus
http://www.medlineplus.gov/

An excellent source for Patient-level health information:

Under “Health Education”

Prepared by your Atlantic Health Librarians, 3/10/2014
CLIP Form

Ask Your Atlantic Health Medical Librarian

The Consumer Library Information Prescription (CLIP) program is a free medical information service provided by the Atlantic Health Sciences Libraries to all patients, their families or caregivers, and the public.

Let our expert CLIP medical librarians help you get accurate, easy to understand, relevant and up-to-date resources on topics such as:

- Conditions
- Diseases
- Procedures, including surgery and tests
- Recent research

Our librarians have access to a variety of consumer health and medical libraries, as well as information from the National Library of Medicine. For your convenience, they can email, fax, mail or deliver information to a patient room at Overlook Hospital or Morristown Memorial Hospital.

If you would like to know more about any health issue, please:

- Complete the form below, including a topic or question, your contact information and preferred means of delivery
- Make sure to click submit, once the form is complete

Your personal information will be secure (see our Privacy Policy) and used only to retrieve the information you requested.

Health statistics and info specifically for the Garden State

Prepared by your Atlantic Health Librarians, 3/10/2014
2) Atlantic Health System Intranet
To reach the Atlantic Health Intranet, enter http://ahsintranet as the URL when you are in any Atlantic Health location that is connected to the Atlantic Health network. You may also access the Intranet from home through this address: https://remote.atlantichealth.org/employee. Log in is the same as at the hospital. You will see the following is the intranet home page:

Some of the resources that are available include:

- Atlantic Health Policy & Procedure Manual – Including manuals for each individual hospital location, plus Corporate Compliance and HIPAA.
- Human Resources – Information and forms for tuition reimbursement, employee referral, benefits, and policies.
- General Accounting – Information and forms for accounts payable, payroll, accounting, and budget.
- Strategic Sourcing – Information and forms for Allied Office Products
- Pathways Materials Management (PMM), requisitions, and purchase orders.
- TSC Self Serve – This provides staff with easy access to the status and activity for their Total Solutions Center Requests.
- Organizational Development –Computer instruction classes link on Intranet, CBT online learning...

Many online applications are available, most requiring IDs and passwords. These include: Citrix, PMM, API, ReportXpress, Office Depot, and Micromedex (described below).
3) Getting Your E-mail:
Atlantic Health e-mail accounts can be accessed from all Atlantic Health locations, as well as from off site. At the hospital, you will access your e-mail using Microsoft Outlook software installed on your computer or via Web Mail. If you are at home or at any location with an Internet connection, you can access your e-mail using Web Mail. In both cases you will need to know your login name and password. Email accounts are set up through the I.S.S. department.

To access Web Mail from an Atlantic Health computer, on the Atlantic Health Intranet, select Applications > Web Mail 2010

To access Web Mail from home, go to: https://webmail.atlantichealth.org. The following screen will appear:

Security (show explanation)
- This is a public or shared computer
- This is a private computer
- Use the light version of Outlook Web App

User name: 
Password: 

Forgot your Password?

The log in is the same as your computer log in.

Prepared by your Atlantic Health Librarians, 3/10/2014
Notes:
A. There are firewall restrictions to AHS e-mail, so certain attachments cannot be sent from Atlantic Health e-mail to an outside e-mail. And no more than 6MB of attachment can be sent unless the receiver side also uses AHS email (up to 10MB).
B. Also you may access your email directly from The Web Mail link on the Intranet at home. Use https://remote.atlantichealth.org/employee to access Intranet. Login is required.

4) New Solution to Access Library Resources from Home:
By signing up to Athens, you may access to most of the library resources from home with one sign-in. There are two ways to register:

- Go directly to https://register.athensams.net/atlh/
- Go to Atlantic Health Library home page; click Athens at the left rail.

After signing up, you may go to MyAthens (http://auth.athensams.net/my/) to start to use the resources.
5) **TDNet – Atlantic Health Journal/eBook Finder:**

Atlantic Health’s **TDNet** provides one-click A-to-Z access to our online journals and eBooks. It includes all Atlantic Health full-text journals, all Print-Only journal titles, online books, and a user friendly search engine.

**To access TDNet from an Atlantic Health computer**, go to the Atlantic Health Intranet and click on Resources > Library > Journals.

**Or access directly at Atlantic Health or at home at:** [http://www.tdnet.com/atlantichealth/](http://www.tdnet.com/atlantichealth/)

Titles with Checkmarks in the Full Text Access column indicate that articles are available through TDNet. Table of Contents are available for most journals. Items not listed can be ordered via Interlibrary Loan. Contact your hospital library for help.
6) **PubMed LinkOut:**

PubMed is free on the Internet and does not require a subscription. If you prefer to use PubMed, you can login to link to Atlantic Health Libraries’ full-text articles and also see statements of our print and microfilm holdings.

To view Atlantic Health links in PubMed from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Info Resources > Library Links. A link to PubMed is provided which will automatically display all Atlantic Health libraries links and holdings so long as you are on the Atlantic Health network.

To access Atlantic Health links in PubMed from home, go to: [http://www.pubmed.gov](http://www.pubmed.gov)

In the upper right-hand corner, click on My NCBI:

ID: ahs1  
PW: library1

To obtain full-text from home through TDNet or PubMed LinkOut, you must log onto MyAthens.
7) Mosby’s Nursing Suite - Mosby’s Nursing Skills, Nursing Consult, and Mosby’s Index

**Mosby’s Nursing Skills** offers convenient access to evidence-based skills and procedures. Nurses can scroll through an alphabetical list, browse by nursing or clinical category, or perform a search to identify a particular procedure.

To access Mosby’s Nursing Skills from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Applications > Reference Tools.

To access remotely, sign in to Athens.
*Mosby’s Nursing Consult* provides nursing guidelines, evidence-based monographs, drug information, clinical updates, patient handouts, and some tools.

*Mosby’s Index* allows you to search over 2,800 international source titles using EMTREE thesaurus and keywords, or browse the journals.
8) **EBSCO Databases:**
EBSCO is a service that combines journal abstracts and full-text articles from hundreds of publishers into searchable databases available for purchase. Our EBSCO databases are funded by Atlantic Health with assistance from the State of New Jersey.

**To access EBSCO from an Atlantic Health computer,** go to the Atlantic Health Intranet and click on Resources > Library > Literature Searching. A link to EBSCO is provided which requires no login or password so long as you are on the Atlantic Health network.

**EBSCO can be accessed from home through Athens.**

The following screen will appear:

Choose **EBSCOhost** Web for most of your research needs. You will then see the following list of databases:

- CINAHL Plus with Full Text
- MEDLINE Complete
- Health Source - Consumer Edition
- Regional Business News
- Biography Collection Complete
- GreenFILE
- Literary Reference Center
- Library, Information Science & Technology Abstracts
- Teacher Reference Center
- ERIC
- Funk & Wagnalls New World Encyclopedia
- Middle Search Plus
- MAS Ultra - School Edition
- Primary Search
- Business Source Elite
- Newspaper Source Plus
- News (AP, UPI, etc.)
- Web News
- AHFS Consumer Medication Information
- Home Improvement Reference Center
- Academic Search Premier
- MasterFILE Elite
Commonly used EBSCO databases include:

- **CINAHL Plus with Full text** The Cumulative Index to Nursing and Allied Health (CINAHL) database provides authoritative coverage of the literature related to nursing and allied health. Virtually all English-language publications are indexed along with the publications of the American Nurses Association and the National League for Nursing plus 900 journals in full text format.

- **MEDLINE Complete** is the largest full-text companion to the MEDLINE index, containing full text for more than 2,100 journals. This collection also provides full text for many of the most used journals included in the index—with no embargo.

- **HealthSource: Consumer Edition** is useful for consumer education and articles for patients and their families.

- **MasterFILE Premier** includes many general reference publications, as well as a good selection of psychology and social work journals.

- **Business Source Elite** contains full text from the world's top management and marketing journals including *Business Week, Forbes, Harvard Business Review*, and *MIT Sloan Management Review*, etcetera. It also has more than 10,100 substantial company profiles.

- **Academic Search Premier** This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

A list of the available journals and whether they are in full text can be accessed by clicking on at the Publications button at the top of the page. A complete list of the journals available in EBSCO databases is available at the Reference Desk.

9) **E-mailing Articles from EBSCO Databases:**
As you are working through your search results in EBSCO and you find articles of interest, you may wish to e-mail these articles to yourself for future reference. First you need to save the results in the folder. You may do it by clicking the “Add to Folder” link under each citation, or add them as a batch. The add batch link is at the top of the result box.

After adding items to the folder, the right side to the results will show **Folder has items**. Click on “Folder view”under it to enter the folder. Your folder list is like this:

---

*Prepared by your Atlantic Health Librarians, 3/10/2014*
The second icon on the screen is the E-mail link. First select the references that you are going to email, then click the icon. This will bring you to the E-mail Manager screen:

Make sure to type your e-mail address correctly. You may select the layout of the citations at this screen. The articles will arrive in your e-mail within the hour.

Prepared by your Atlantic Health Librarians, 3/10/2014
10) Joanna Briggs Institute (JBI) EBP Database:

JBI is accessible through OVID interface and it allows you to search simultaneously over 3,000 records across seven publication types:

- Evidence Based Recommended Practices,
- Evidence Summaries
- Best Practice Information Sheets
- Systematic Reviews
- Consumer Information Sheets
- Systematic Review Protocols
- Technical Reports

To access JBI from an Atlantic Health computer, go to Library > Quick Links > OVID Databases.

It also has ten tools that you can use for appraisal and implementation, quality improvement, and research. To use the EBP Tools, you must register for a personal account.

JBI is available from home through Athens under OVID Databases.
11) OVID Databases:

Ovid is a powerful interface for accessing some of the most essential research databases such as MEDLINE (for physicians and researchers), evidence-based reviews such as Cochrane Database of Systematic Reviews and Health Technology Assessment, and the EBP database for nursing Joanna Briggs Institute.

To access OVID from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Resources > Library > Quick Links.

To access OVID remotely, log into MyAthens then click Ovid Online under Resources.

Commonly used OVID databases are summarized below for your reference.

MEDLINE (1946 to present):
MEDLINE, produced by the U.S. National Library of Medicine, is a major source of bibliographic biomedical literature. The database encompasses information from three printed indexes, (Index Medicus, Index to Dental Literature and the International Nursing Index), as well as other sources of coverage in the areas of allied health, biological and physical sciences, humanities and information science as they relate to medicine and health care, communication disorders, population biology, and reproductive biology. More than 19 million records from more than 5,600 journals are indexed, plus selected monographs of congresses and symposia (1976-1981). Abstracts are included for about 67% of the records beginning with 1978 forward.
Your Journals@OVID (Full Text):
This collection contains the full text of 106 biomedical journals. Every word is searchable, including references and graphics captions. Within the Full Text display, hypertext features allow users to display an outline of the document and move immediately to a selected section, to display complete references cited within the text of a document, and to link directly to MEDLINE and other full text documents. The Ovid Web Gateway interface includes all graphics, tables, and photographs as they appear in print.

MEDLINE In-Process and PRE-MEDLINE:
This database includes articles that will become part of MEDLINE but have not yet been fully cataloged. These citations are searchable by keyword only. This gives limited access to very current citation information.

HealthSTAR (1966-present):
Health Services, Technology, Administration and Research (HealthSTAR) is the result of the merger of two separate databases by the U.S. National Library of Medicine: HSTAR and the jointly published NLM-American Hospital Association Health Planning and Administration databases (HEALTH). HealthSTAR focuses on both the clinical and non-clinical aspects of health care delivery. Coverage includes evaluation of patient outcomes, effectiveness of procedures, programs, products, services and processes; administration and planning of health facilities, services and manpower; health insurance; health policy; health, economics and financial management; laws and regulations; personnel administration; quality assurance; and licensure and accreditation.

EBM Reviews:
Evidence Based Medicine Reviews allows you to search three Evidence Based Medicine Reviews databases: ACP Journal Club (ACP), Cochrane Database of Systematic Reviews (CDSR), and Database of Abstracts of Reviews of Effects (DARE).

- **ACP Journal Club** is full-text database that is a joint project of the American College of Physicians and British Medical Journal Publishing Group. The editorial staff at ACP Journal Club screens the top clinical journals on a regular basis and identifies studies that are both methodologically sound and clinically relevant. They write an enhanced abstract of the chosen article and provide a commentary on the value of the article for clinical practice.

- **Cochrane Database of Systemic Reviews** includes the full text of the regularly updated systemic reviews of the effects of healthcare prepared by the Cochrane Collaboration, an international network of individuals and institutions committed to disseminating systematic reviews of the effects of health care. The reviews are presented in two types: Complete reviews and Protocols. Protocols are the background, objectives and methods of reviews in preparation.

- **Database of Abstracts of Reviews of Effects (DARE)** is a full text database containing critical assessments of systematic reviews from a variety of medical journals. DARE is produced by the expert reviewers and information staff of the National Health Services' Centre for Reviews and Dissemination (NHS CRD) at the University of York, England, and consists of structured abstracts of systematic reviews.
reviews from all over the world. DARE records cover topics such as diagnosis, prevention, rehabilitation, screening, and treatment.

- **Health Technology Assessment** Health Technology Assessment database brings together details on ongoing health technology assessments (studies of the medical, social, ethical, and economic implications of healthcare interventions).

- **NHS Economic Evaluation Database** The National Health Service (NHS) Economic Evaluation Database is funded by the Department of Health's NHS Research and Development Programme (UK), and produced by the Centre for Reviews and Dissemination (CRD), and provides cost-benefit analyses about healthcare interventions.

12) **E-mailing Articles from OVID Databases:**
As you are working through your search results in OVID and you find articles of interest, you may wish to e-mail these articles to yourself for future reference. Just place a check in the checkbox near each of the articles that you wish to e-mail. Then, go to the Results Manager at the left hand side of the page:

Select the options that you desire and then click the “Email” button. The following screen will appear:
Just fill in your e-mail address and all of your selected citations and abstracts will be sent to the email address or addresses you specify. You may also select the citation style.

OVID also includes linking and holdings statement to the Atlantic Health Libraries:

13) Micromedex:
Micromedex is available on the Intranet and is accessible from any computer on the Atlantic Health network. It is not available from home or off-site but available for mobile devices. Go to [http://ahsintranet](http://ahsintranet) and click on Applications > Reference Databases > Micromedex.
The ultimate drug database, Thomson's Micromedex provides alerts, answers, protocols, and interventions to directly address clinicians' need for evidence-based information. Includes drugs, diseases, acute care, toxicology, alternative medicines, and patient education.

The formulary looks at classes of drugs and gives dosing information and patient education information. Just enter a keyword on the search line to search all of the databases at once or choose a single component of the database to search.

Also available are:
- the full text of the PDR/Blackberry/iPhone and Martindale’s Drugdex
- patient education handouts for procedures, diseases, and surgeries under Patient Ed > Care Notes
- online training is available in the electronic library

The Website is user-friendly and easy to navigate. Type a drug name in the search box and you will get summary information. If you need more in-depth information, click the “View detailed document” for the comprehensive drug info in DRUGDEX.

Click mobileMicromedex at the top then select either for tablet or Apple and Android phones to follow instructions to download to your device.
I. For Apple and Android phones, Drug information App is free through iTune or Play; Drug Interaction and IV Compatibility apps need password to access.

- **Drug Interaction App:**

  Step 1: Visit the App Store or Google Play from your device and search Micromedex, or use the link below.
  Step 2: From the app preview page, select the **FREE** button. You may be prompted to enter your Apple or Google ID.
  Step 3: The app will download to your app library, or directly to your device.
  Step 4: Open the app. Enter the password `1dt3d0` to begin using Micromedex Drug Interactions.

- **IV Compatibility App:**

  Step 1: Visit the App Store or Google Play from your device and search Micromedex, or use the link below.
  Step 2: From the app preview page, select the **FREE** button. You may be prompted to enter your Apple or Google ID.
  Step 3: The app will download to your app library (desktop), or directly to your device.
  Step 4: Open the app. Enter the password `4q2zVf7r` to begin using Micromedex® IV Compatibility.

II. Access Micromedex from your tablet:

Prepared by your Atlantic Health Librarians, 3/10/2014
Step 1: Open your mobile browser (Click here for a list of supported browsers)
Step 2: Go to http://www.thomsonhc.com/micromedex2/librarian
Step 3: Enter your authentication information:

If you DO NOT access Micromedex from your desktop with a user name and password, use the following authentication information:

Username: MBL_THC_2915
Password: AZG03U

Note: After entering the authentication information, it will last for the current quarter on your device. At the end of the quarter you will need to return to this site and obtain a new username and password.

14) ClinicalKey:
ClinicalKey uses its search engine to quickly search across the following resources in a single step:
- Over 500 Journals & all medical and surgical clinics of North America
- Over 1,000 Books
- Trusted point-of-care content rom First Consult
- All Procedures Consult content and associated videos
- 13,000+ medical and surgical videos
- Over 5 millions of medical and surgical images
- Over 2,000 Practice Guidelines
- ClinicalTrial.Gov database listings
- Patient education handouts

Prepared by your Atlantic Health Librarians, 3/10/2014
ClinicalKey may be accessed from home through Athens; or by logging in to the individual account (pre-registration on-site required).

15) DynaMed:
DynaMed is a different type of EBSCO database. It provides evidence-based coverage of diseases and therapies. DynaMed systematically identifies, selects, and critically evaluates the best available evidence in the literature. Updated daily, CME credit is available.

To access DynaMed from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Resources > Library > Reference Tools. A link to DynaMed is provided which requires no login or password so long as you are on the ATLANTIC HEALTH network. Select Morristown DynaMed to ensure that your CME credits are sent to the correct CME coordinator.

The following screen will appear:

Searching DynaMed
- Topic Search – Enter a search term in the search box. If a Topic is not found, it allows for full-text searching.
- Full-Text Search - DynaMed allows for full text searching whereby users enter search terms. This searching supports Boolean operators (AND, OR, NOT) and wildcards, and presents results ranked by relevance.
Browsing DynaMed

- **Browse Topics Alphabetically** - The quickest way to locate a topic of interest, users simply browse an A-Z listing, or type to first few letters of the topic of interest to quickly jump to the appropriate item.
- **Browse Topics by Category** - For users who do not know the name of a specific topic, DynaMed offers the ability to search categorically. As such, users may focus on a specific area of medicine, and further drill down to locate the particular item of interest.
- **Cross-Linking** - In order to make navigation as intuitive as possible, DynaMed offers internal cross-links that can take the user to related topics with a single click. It will also link to the full-text of any article available in EBSCO.

16) **UpToDate**:

UpToDate is a database with peer-reviewed chapters, images and charts.

To access UpToDate from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Resources > Library > Reference Tools. You may also register to get an app for your iPhone, iPad, or Android phones.

UpToDate can be accessed from home through Athens.
A results list will then display. Choose “Print” button when printing.

CME is also available through registration or Athens.
17) AccessMedicine:
McGraw Hill’s AccessMedicine is a full-text collection of current classic medical and nursing textbooks, updated daily, such as:
- Harrison's Online
- Hurst's The Heart
- Current Medical Diagnosis & Treatment
- Tintinalli's Emergency Medicine
- Many other books in the Current & Lange medical series

In addition, AccessMedicine includes expert commentary and news updates on discoveries, advances, breakthroughs, and issues in scientific research and clinical medicine. The search engine allows you to search a single book or all books at once. Grand Rounds online lectures are provided as a teaching aid.

To access AccessMedicine from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Resources > Library > Reference Tools.

AccessMedicine can be accessed from home through Athens.
In addition the following books may also be browsed or searched:

**BASIC SCIENCE**

**Biochemistry**  
*Harper's Illustrated Biochemistry, 26 E / Murray*

**Epidemiology**  
*Math Medical Epidemiology, 4 E / Greenberg*

**Histology**  
*Basic Histology: Text & Atlas, 10 E / Junqueira and Carneiro*  
*Histology Image Review / Wilson*

**Microbiology**  
*Jawetz, Melnick, & Adelberg's Medical Microbiology, 23 E / Brooks*

**Neuroanatomy**  
*Clinical Neuroanatomy, 25 E / Waxman*

**Pathology**  
*Concise Pathology, 3 E / Chandrasoma and Taylor*

**Pathophysiology**  
*Pathophysiology of Disease, 4 E / McPhee*

**Pharmacology**  
*Basic & Clinical Pharmacology, 9 E / Katzung*

**Physiology**  
*Review of Medical Physiology, 21 E / Ganong*

**CLINICAL MEDICINE**

**Cardiology**  
*Current Diagnosis & Treatment in Cardiology, 2 E / Crawford*

**Endocrinology**  
*Basic and Clinical Endocrinology, 7 E / Greenspan and Gardner*

**Obstetrics & Gynecology**  
*Current Obstetric & Gynecologic Diagnosis and Treatment, 9 E / DeCherney and Nathan*

**Ophthalmology**  
*Vaughan & Asbury's General Ophthalmology, 16 E / Riordan-Eva and Whitcher*

**Orthopedics**  
*Current Diagnosis & Treatment in Orthopedics, 3 E / Skinner*

**Otolaryngology**  
*Current Diagnosis & Treatment in Otolaryngology—Head & Neck Surgery / Lalwani*

**Pediatrics**  
*Current Pediatric Diagnosis & Treatment, 17e / Hay*

**Psychiatry**  
*Current Diagnosis & Treatment in Psychiatry / Ebert*

**Pulmonary Medicine**  
*Current Diagnosis & Treatment in Pulmonary Medicine / Hanley and Welsh*

**Rheumatology**  
*Current Rheumatology Diagnosis & Treatment / Imboden*

**Surgery**  
*Current Surgical Diagnosis and Treatment, 11 E / Way and Doherty*

**Urology**  
*Smith's General Urology, 16 E / Tanagho and McAninch*
18) **MDConsult:**  Courtesy of Levy Library, Mount Sinai School of Medicine

MDConsult offers:

- Leading medical texts, unabridged and continuously updated
- Full-text articles from top clinical journals
- Peer-reviewed clinical practice guidelines with integrated MEDLINE searches
- Customizable patient education handouts, with key topics available in Spanish
- A comprehensive drug database of than 30,000 medications

**To access MDConsult from an Atlantic Health computer,** go to the Atlantic Health Intranet and click on Resources > Library > Reference Tools. A link to MDConsult is provided which requires no login or password so long as you are on the Atlantic Health network.

MDConsult CANNOT be accessed from home.

19) **R2 Digital Library:**

R2 Digital Library is an online health science book database. Currently we have subscribed to six books as follows:
• Basics of Anesthesia. 6th ed.
• Essentials of Nursing Research: Appraising Evidence for Nursing Practice, 8th ed.
• Johns Hopkins Nursing Evidence-based Practice: Model and Guidelines, 2nd ed.
• Nurse Practitioner Certification Examination and Practice Preparation. 3rd ed.
• Rapid Interpretation of EKG’s. 6th ed.

You may browse or search contents throughout the whole book, print the page, or export citation etcetera by selecting one of the tabs at the top of the page.
To access R2 Digital Library from an Atlantic Health computer, go to the Atlantic Health Intranet and click on Resources > Library > E-books.

R2 Digital Library can be accessed from home through Athens.

20) **Natural Standard:**

Natural Standard is available on the Intranet and is accessible from any computer on the Atlantic Health network. Go to [http://ahsintranet](http://ahsintranet) and click on Applications > Reference Tools > Natural Standard.

For information on natural products and herbal remedies, this is the best database to use. It includes high-quality, evidence-based information on complementary and alternative therapies. A research team systematically gathers scientific data and expert opinions that undergo blinded editorial and peer review. Validated rating scales are used to evaluate the
quality of available evidence. Comprehensive monographs are designed to facilitate clinical decision making.

**Natural Standard can be accessed from home through Athens.**
21) **Exam Master Online:**
Practice tests (over 19,000 questions) and study guides for the USMLE & Medical Board exams, dentistry, physician assistant, pharmacy, and urgent care.

Prior to using this resource from an offsite location, registration is required at an Atlantic Health computer, where a personal ID and password must be established. The following link may be used from outside of the hospital:
https://ahsys.myexammaster.com

22) **NCLEX-RN Online:**
Embedded in Exam Master, NCLEX-RN has over 3800 multiple choice questions covering the complete NCLEX-RN® exam blueprint. It strongly focuses on client needs.

Accessible from home once registered in the hospital.
23) **eMedicine/Medscape Reference:**
eMedicine is a free resource which includes evidence-based, peer-reviewed articles on over 7,000 diseases and disorders in 59 medical specialties. eMedicine also contains over 30,000 multimedia files, such as images and videos. Registration is required for the first time.
24) **Online Physician Directories:**

**Atlantic Health System Physician Search**
http://findadoctor.atlantichealth.org/

In order to locate information for attending physicians who practice at any Atlantic Health facility, visit the Atlantic Health internet website at http://www.atlantichealth.org and click **Find a Doctor Online** at the upper right corner of the page. Or, alternatively, go directly to the URL provided above. This searchable database provides current contact and certification information for Atlantic Health physicians and dentists. Atlantic Health Physician Search is an excellent tool for locating doctors or dentists by name, specialty, location, or insurance plan.
ABMS Directory of Board Certified Doctors
http://www.boardcertifieddocs.com
Check any US physicians’ board certification status, medical education and work history. Updated daily, BoardCertifiedDocs provides instant access to complete and verified professional credentials on more than 600,000 board certified physicians. Designated a primary source for board certification information by the NCQA and JCAHO, this powerful database is an essential tool for credential verification offices and medical libraries. This resource is not available outside locations.

New Jersey’s Physician Directory
http://www.njdoctorlist.com
Search for any New Jersey physician and find out background information and NJ licensure status.
